# Silver Oak Technovations

Design|Development|Branding

## About us

Silver Oak Technovations, we take pride in our strong company culture and home in the heart of cochin, which is the IT hub of Kerala, in India. We have a superior technical team that has expertise in the latest technological advancements. Ever since the company began, every member of the staff has continued to grow and learn, while honing their skills and becoming leaders in the information technology field.

We offer a professional, methodical approach to the management of all the projects that we work on. This has proved to be vital in achieving quality solutions to the issues that are faced by our clients. When we take on a project for a client, we stop at nothing to offer the best answers to their technology problems and will work closely with them to ensure that these issues are never faced again.

Our clients mean everything to us. Once we begin working with you, we are fully dedicated to fulfilling the commitment that we have made to you. Our superior, above and beyond service allows for a client retention rate that is second to none and great word of mouth. Once you become one of our clients, you will be impressed with our level of integrity and the hard work that we will perform for you. We do not consider a job to be over once we have fulfilled the bare minimum requirements. We consider all projects to be works in progress and will continue to help you in any way that we can, whether that means updating your website or adding on to your mobile application.

## Why choose us?

A number of factors set us apart from our competition including,

- We always strive for perfectionism
- We firmly believe in the age old theory 'customer is king'.hence we will be in constant dialogue with the you to assure your full satisfaction.
- We identify precisely the needs and wants of the client through constant updates and demonstration.
- We assure return on investment

## Innovations & R&D

Silver Oak Technovations provides technology consulting, new product development , system integration and testing services for leading product companies, service providers and aspiring start-ups. This is backed by an in-depth understanding of technology, a large multi-disciplinary product development team and mature processes and systems.

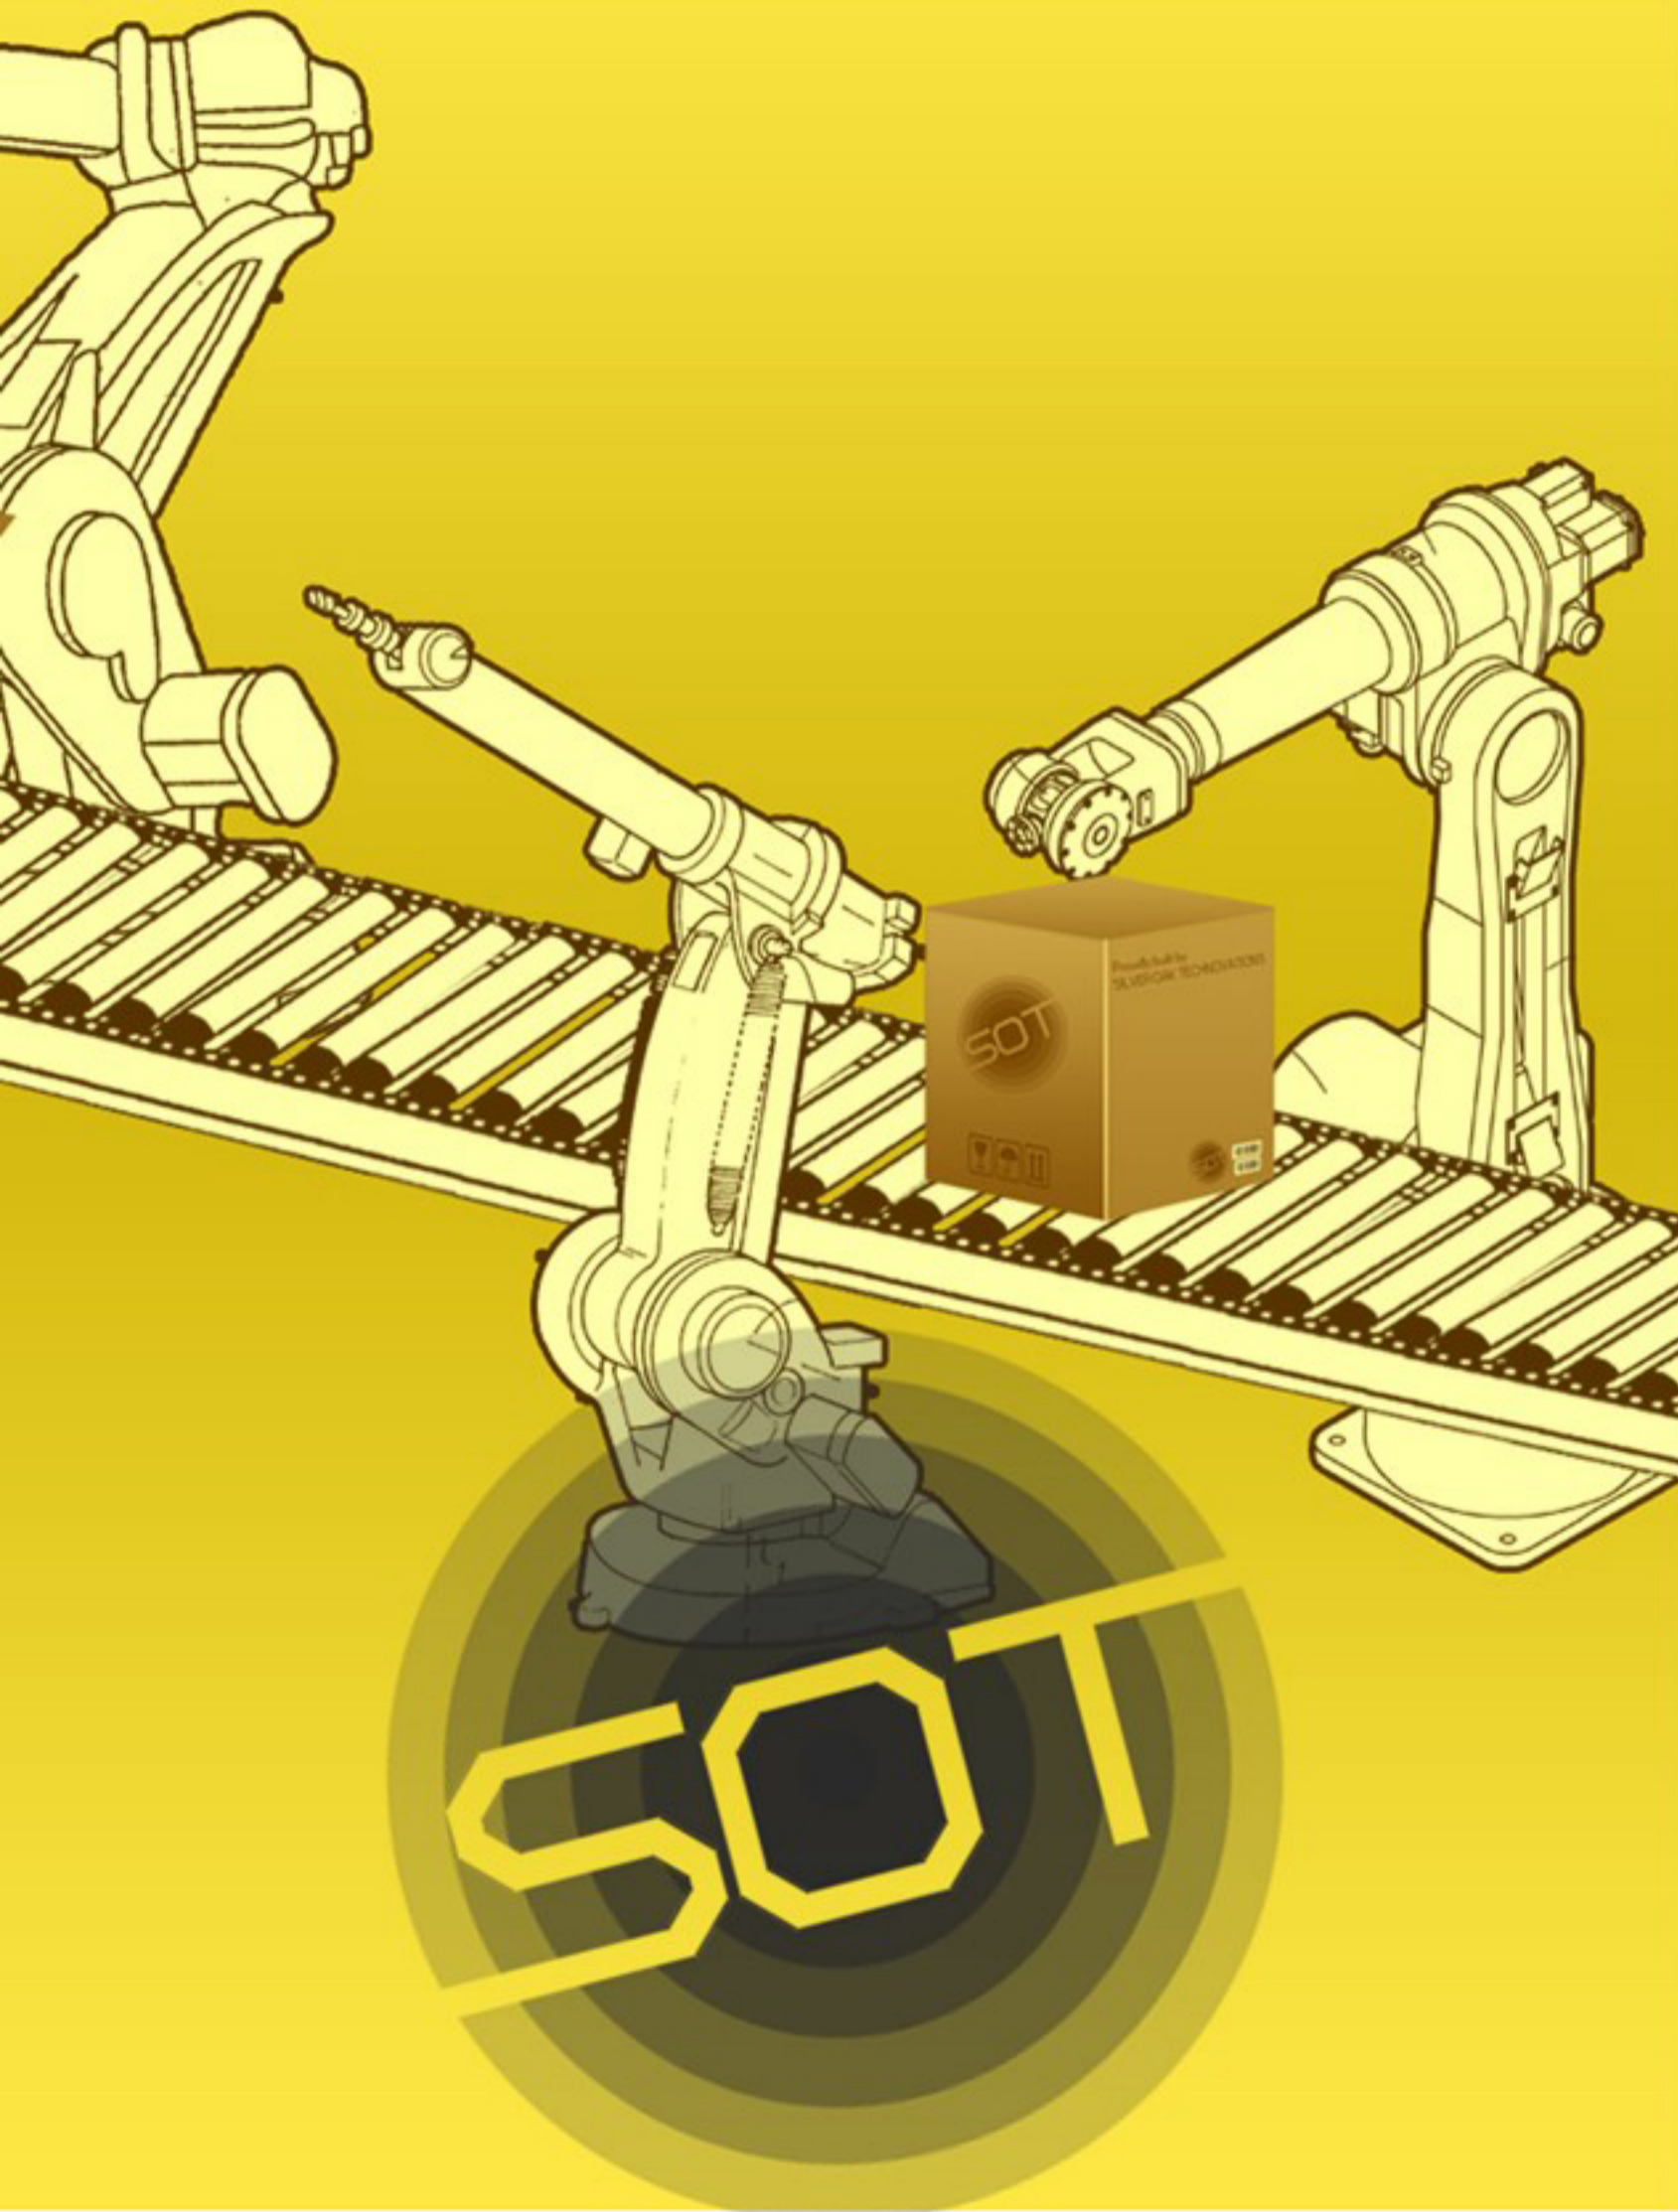

We also create and license intellectual property and software components, helping customers create product differentiation and reduce development costs and time - to - market . We address product engineering for consumer products, transportation, energy, medical electronics, and telecom.

## History

Founded by a group of students from Govt Model engineering college ,Cochin. SOT ,since its inception in September 2013, has grown into a company that stands for dedication and satisfactory client interfacing.

Our initial venture began in website designing and we have become exceptional at it. We have done websites ranging from small trading companies to multi specialty hospitals in Kerala. Our reach has now extended to the Middle East and China.

Now, we address product engineering for consumer products, transportation, energy, medical electronics, and telecom.

## Management Team

Teamwork is our strength. We are able to understand and address your concerns promptly so that you are completely satisfied. Every team member is an indispensable asset of the organization and is individually responsible for the success and achievement of our organizational goals.
